Dear Immigration Examiner:

This letter is to certify that Renat Usmanov is an active member of the Skolkov Innovation Center. He was invited to join our organization in April of 2021 due to his outstanding achievements as an entrepreneur and extraordinary contribution to the global startup community.

Skolkov Innovation Center is an elite entrepreneur organization. Skolkov Innovation Center is the Silicon Valley of Russia. The strategic goal of the Skolkovo Innovation Center is to concentrate international intellectual capital, thereby stimulating the development of break-through projects and technologies. Members generate billions of dollars in revenue and have created tens of thousands of jobs. We are a highly-selective, quality over quantity organization where members can only join by invitation. Membership is both highly sought-after, and admission is limited to the highest-quality members of the business community. Each applicant is thoroughly reviewed and vetted before being offered admission. While admit rates can vary slightly over the course of a year, generally our acceptance rate for Antler is at around 3%, more stringent than even the stiffest of Ivy League acceptance rates. We don't share every detail of the selection process, but an overview of our process is explained below:

1. In accordance with paragraph 7 of Article 2 of the Regulation on the Assignment and Loss of Status a participant in the project of creating and ensuring the functioning of an innovation center Skolkovo, approved by the Foundation Council and agreed by the Board of Trustees, and Articles 3 - 5 of the Regulations on the Expert Collegiums of the Non-Profit Organization Foundation Development Center for the Development and Commercialization of New Technologies, approved by order of the Fund, and based on the decision of the Non-Profit Organization Development Fund Center for the development and commercialization of new technologies on the direction of the Applicant's application for preliminary examination for consideration by the Expert Board for examination of the application on the merits and on the convocation of a meeting of the Expert Board dated 09.02.2021 examination of the applicant's application for preliminary examination **Usmanov Renat Rushanovich** from 02/01/2021 under the project "**No-code platform with drag and drop interface for self-development of mobile applications and AR module, voice recognition and automatic UI / UX analytics**", in essence, a meeting of the Expert collegium, for which its composition was determined from among experts on Innovative priority "increasing the efficiency of sales, marketing and advertising processes", within the framework of the Direction of activity "Strategic computer technologies and software "in the amount of 5 members and sent to the members of the Expert collegiums Application form for preliminary examination (in electronic form), as well as Evaluation bulletin.
2. Within the period specified in paragraph 3 of Article 4 of the Regulation on Expert Collegia Non-profit organization Development Fund for Development and Commercialization Center new technologies, to the non-profit organization Development Fund of the Center for Development and commercialization of new technologies sent 5 completed Assessment Bulletins. Of them in 5 Assessment Bulletins, the members of the Expert Board indicated that they are not interested parties in relation to the Applicant. Thus, according to paragraph 6 of Article 2, paragraphs 2 - 3 of Article 4 and paragraph 1 of Article 5 of the Regulation on Expert collegiums of the Non-Profit Organization Development Fund of the Center for Development and commercialization of new technologies in the meeting was attended by 5 members of the Expert collegium, in connection with which the meeting of the Expert collegium is recognized as valid.
3. Decision on the question of whether the created product and (or) technology has potential competitive advantages over global peers:
YES - 3 votes.
NO - 2 votes.
Result: The expert board made a decision on the compliance of the project, submitted by the Applicant according to the preliminary examination given by the requirement.
4. Decision on the question of whether the created product and (or) technology significant potential for commercialization, at least in Russian, and in perspective - in the world market:
YES - 4 votes.
NO - 1 votes.
Result: The expert board made a decision on the compliance of the project, submitted by the Applicant according to the preliminary examination given by the requirement.
5. Decision on whether the project is theoretically feasible and not contrary to fundamental scientific principles:

YES - 5 votes.
NO - 0 votes.

Result: The expert board made a decision on the compliance of the project, submitted by the Applicant according to the preliminary examination given by the requirement.

6. Decide whether key researchers, developers and project managers (hereinafter referred to as the Project Team) necessary for successful implementation project and knowledge related to the subject of the project, scientific or industrial experience and entrepreneurial potential:

YES - 5 votes.
NO - 0 votes.

Result: The expert board made a decision on the compliance of the project, submitted by the Applicant according to the preliminary examination given by the requirement.

7. Decision on whether the submissions are sufficient for the assessment project:

YES - 5 votes.
NO - 0 votes.

Result: The expert board made a decision on the sufficiency of the submitted materials for project evaluation.

8. Taking into account the above, the project submitted by the applicant for preliminary examination, recognized as meeting the requirements of subparagraphs 2 - 5 of paragraph 1 of Article 2 Provisions on the assignment and loss of the status of a participant in the creation and provision project functioning of the Skolkovo innovation center.

At Skolkov Innovation Center, we have long-term ambitions to drive positive change by connecting successful entrepreneurs from all over the world with a network of support. Our companies have been recognized in media outlets worldwide.

If there are any questions with respect to Renat Usmanov's membership, please do not hesitate to contact us.

Regards,

Vice President,
Executive Director
Information Technology Cluster
